Nexus Elite Sensor

The ultimate in power and safety for the farmer & shearer

Expertly engineered to ensure power and user safety, Lister's Nexus Elite Sensor features a powerful 700W motor and an electronic current sensor that protects the user and avoids handpiece lock-ups, automatically stopping the machine if the handpiece hits an obstruction in the wool.

- Advanced protection with an electronic safety sensor
- Optional drive speeds of 2800rpm, 3200rpm and 3500rpm
- Quick Release 'QR' technology allows for rapid attachment and release of the drive for increased efficiency
- Robust design with impact resistant moulded casing
- Low starting current of 7 amps
- Fitted with a rubber foot for stability and ease of portability
- Compatible with both mains electricity and generators

The Nexus Elite Sensor is factory set at 3500rpm. To alter the speed, please refer to the instruction manual.

Nexus Elite Sensor (AUS): 289-19240

Nexus Elite Sensor (NZ): 289-19241

| Specification Type | Product |
|----------------------------|--|
| Power Source | Mains electricity, Generator |
| Motor Power | 700W |
| Blade Speed | 2800rpm, 3200rpm & 3500rpm |
| Working Height | Hang set so that end of drive is 1-2mm (1/16") above ground or working surface |
| Solid Drive Setting | Lower bayonet/worm joint projection 3mm (1/8") |
