Nexus (QR) Machine

A multi-speed machine for the farmer & shearer

The world-leading, multi-speed start and run shearing machine boasts the very latest drive release technology, fitted as standard and available for both flexible and solid drives. The quick release system (QR) featured on the Nexus allows for rapid attachment and release of the drive from the motor unit.

- Optional drive speeds of 2800, 3200 and 3500rpm
- Fitted with 'Quick Release' (QR) technology
- Low starting current allowing for either mains or generator power
- Fitted with a rubber support foot for easy transportation
- Available with either QR solid or flexible drives
- Designed and manufactured in the UK

The Nexus (QR) is factory set at 2800rpm. To alter the speed, please refer to the instruction manual.

Nexus Machine (with Solid Drive Spline): NQR-GBRSS

Nexus Machine (with Solid Drive Pin): NQR-GBRSP

Nexus Machine (with Flexible Drive Pin): NQR-GBRFP
