# Nova (240V) Machine

A double-insulated machine for the farmer & shearer

The single-speed, double-insulated Lister Nova lets you shear safely and with absolute confidence. Nova (240V) features an ultra-low starting current and a lightweight, durable casing for easy maintenance.

- Single speed
- Double insulated for safety
- Low starting current
- Lightweight robust casing
- Standard rope-pull on/off switch
- Designed and manufactured in the UK

The Nova operates through a 1.8m flexible drive, and is not available with a solid drive.

Nova Machine (240V / Flexible Drive with Handpiece): NUF-ADXZB

Nova Machine (240V / Flexible Drive less Handpiece): NUF-ADXXX
