Skorpion

A triple bearing handpiece for precision control

Skorpion is a perfectly weighted, triple bearing handpiece for cool running and effortless results. Ideal for the professional shearer, the contoured body has been expertly moulded to ensure absolute precision and comfort over long periods of time.

- Triple Bearing technology for a superior cut
- Expertly engineered to ensure cool running
- Intelligent design with a low profile racing fork and prongs to reduce drag
- Free spinning back joint with extra articulation
- Slim-line balanced and contoured body for comfort over long periods
- Moulded grip for increased control
- Available with a pin or worm drive
- Designed and manufactured in the UK
